SUPERINTENDENT

To the Class of 2013
As I mentioned in my graduation speech, you are just beginning a life-time of learning. In order to succeed in today's global economy, each of you will need to continually acquire new skills.

Collaborative, innovative and technologically savvy are buzzwords that employers mention as they describe attributes needed by today's work force. Fortunately, over the last four years all of you have developed these attributes through rigorous academics and challenging vocational programs.

If you are planning to enter the work force, make sure you are on time every day, ask questions, and absorb as much as you can from the older more experienced workers on the job. At the same time, don't be afraid to challenge the status quo and continually look for ways to be more efficient and productive in whatever career you choose to enter. Many of you have already been in the work force; either through co-op jobs, internships or part-time jobs. You already know what to expect.

If you are deciding to further your education, many of you will have an advantage over your college classmates. Many of the concepts you will be learning, in whatever major you choose, you have already applied in your vocational programs. Your schedule here at Tri-County, rotating each week between academics and your vocational program, has forced you to budget your time in order to complete all of your assignments. During your Senior Project, you have learned to write a research paper and present it orally to a panel made up of teachers, administrators and industry representatives. I am sure that this was not an easy or comfortable task for most of you. However, the benefits you will derive from this process will serve you well during your college years.

Lastly, to those of you who have chose to enter the military I applaud you. This is truly a courageous decision. I am sure that the skills you have acquired at Tri-County have prepared you to succeed in whatever branch of the service you have chosen. Stay safe and remember that our thoughts and prayers are with you.

I wish each of you great success and happiness in whatever career path you choose. Don't forget to come back to Tri-County and thank those teachers who gave so much to ensure your success. Good luck and make all of us at Tri-County proud of your accomplishments.

Sincerely,
Mr. Stephen F. Dockray

PRINCIPAL

Dear Class of 2013,

It has been both a pleasure and a privilege to serve as your principal. Individually, you have earned many honors for yourself and for Tri-County. As a class, you were unified in your support for each other as you moved from Grade 9 students to our graduation day on June 9.

Congratulations,
Jean Mallon

CLASS OFFICERS

To the Class of 2013,
As we leave Tri-County, we move on with the rest of our lives, and we continue on to the various places the world has to offer: our trades, college or the military. Through our teachers' lectures and lessons, and by working with each other, we have learned so many things during our time together. These things will help us to succeed later in life, and to take every possible opportunity and put our skills to use in our trade, field, or place in society that we choose to call our own.

Though at times high school may have seemed challenging, our high school experience will prove worthwhile, and while leaving at first seemed easy, it was difficult to leave our friends and the memories we shared among the halls of Tri-County. As we continue on our new path in life, remember that everything which we have shared will never be forgotten, and though we may encounter difficult times along the way, we know that with the memories, lessons and friendships we have acquired through our years at Tri-County, we will be able to persevere. As Albert Einstein once said, "Out of clutter, find simplicity. From discord, find harmony. In the middle of difficulty lies opportunity."
Without a doubt, each of you will go on to accomplish great feats and become amazing adults. Take the chaos in the world, and make it into your peace, find every possibly good outlook on life, and never give up. Good things come to those who try.

Congratulations!
Best regards,
Danny Todd, President
Colleen Mistler, Vice President
Chris Weir, Treasurer
Kayla McCarthy, Secretary

on your retirement!

Howard (Howie) King

Physical Education Instructor
Health Education Teacher
Coach • Mentor

36 years of service

Howard King, best known as *Howie, Mr. King,* or *Coach,* has been working at Tri-County since the doors of the building opened in 1977. He actually was on the first team of teachers who would meet in the basement of St. Mary's Church here in Franklin before the building was completed. Tri-County is an institution of learning that fosters personal growth and lifelong learning. Mr. King lives those tenants himself. He is an institution, for being the longest lasting teacher to survive here at TC! He is someone you can learn from whether it is in his classes of health, PE or on the athletic courts or fields. He is a lifelong learner, becoming adjusted to the times and keeping up with the kids he has found his way into social media, including learning how to text. Mr. King is also well known for his great sense of humor and his ability to always put a smile on peoples' faces. A man that is respected by his peers, students, and by the administration truly suggests that he is a man of good character and high morals can simply be called KING. Mr. King is the King of TC and he will be greatly missed.

Congratulations and best wishes Coach!

These past four years have definitely created some wonderful memories and lasting friendships. I've met some amazing people like Jacqueline Tedesco, Shannon West, Keara DeRose, and so many more. We've had some great times together and I hope we stay in touch. I also had an awesome group of shop seniors during my freshman and sophomore year; my time at skills with Kath Bukis, Heidi Anderson and Jess Hutchings was a ridiculously fun experience. Thank you to all my friends, teachers, Ms. Johannesen, and Mr. O'Brien for your friendship, support, and advice. Without you, I might not have made it.

Every adult tells us, high school is the best time of your life, so enjoy it while you can. Now that high school is over, its time to start our lives. My favorite memories were meeting my friends in shop, and on sports teams.M.M., K.S., E.M.,A.B. I met so many wonderful people who enjoy the same things I do. Slide tackling in soccer, guarding taller and bigger girls in basketball, being the 800 Mayflower League champion. 2012 Mayflower league girls track champions. I have several memories. One of them was with Mr. Wallace in freshman year. He got so ticked off, he threw and broke things that I didn't even think was possible. We all tried not to laugh. There was also time where I found a friend that liked what I liked. They are my only friends. I would not know what I know today without them. It also took me over 10 years to finally get my black belt in Martial Arts. Ever since I joined the Anime club, I have found 45 more friends who likes the same kind of anime I do. I have also learned how to completely mod my Wii games, and it is great. I am currently spreading this love throughout the world, and they are loving it too.

Back in freshman year, our shop went on a field trip to BCC where there was a website contest. My friend and I were in a group and we spent the whole time working except still laughing and having fun. The next time we went in junior year there was more to the trip. We had lots of contests, most of which I won. We also had the same web design contest which we were paired together again. We had the same amount of fun but won by a huge margin!
Colleen Mistler

Team dinners, league champs, and the state voc game, win or lose there was no one to blame. Halloween freshman year to the last day at junior year, any reason was a good reason to say cheers. Free concerts and sweet 16 in the summer, followed by chilling in the basement and attic in the winter. Cruising to school, jungle juice, and procrastination pretty much sums it all up. That was a crazy game of poker. Thank you to all those who always reminded me to smile. Z.Z., A.M., V.B., K.F.

The times we regret to forget, friends' were lost and true friends were found. Endless laughs and countless ragers. My friends are what got me where I am, and I couldn't possibly find a way to thank them. J.K., K.C., C.M.

As the final countdown hung in the hallway the 2012-2013 year was coming to an end. The memories I've made have been countless. I've met so many amazing people. Senior year has been some of the best and worse times. But I wouldn't change anything. It helped me grow as a person. I would have been lost without my best friends Cay, Kels, Gigi, Jay, Danielle, Ray and Heidi even though we fuss and fight. There is no better class than the class of 2013. The memories we've made will always be with us no matter how far we go, or where life will take us.

Some of my favorite memories all throughout high school include my best friends Lauren, Jocelyn, and Amanda. We have so many memories together I can't even count. No matter what happens between us I always have and always will call them my best friends. I will always remember our trips to Maine and the Cape, late night drives to Taco Bell, and staying up all night laughing about nothing. My best memory of school was in 9th grade. We gathered in the auditorium, and the principal told us that we made the right decision by coming to Tri-County. My first trip to SkillsUSA was also a good time, and things only got better in later years.... Most of the time. It was in engineering that I discovered my interest in software design, and that led to my senior project. I'll see you all at the senior project fair. Goodbye Tri-County.
